**ANNUAL WATER QUALITY REPORT
(Consumer Confidence Report)
FOR CALENDAR YEAR 2017**

The District employs a State of Arizona Certified Water Operator. One of his primary functions is to do required testing of our water quality to make sure it meets state and federal drinking water standards. The results are reported to consumers and the Arizona Department of Environmental Quality annually in a Consumer Confidence Report. Because our water supply is treated and delivered by Scottsdale, our report includes the results of Scottsdale's required testing as well. The report for 2017 concluded:

"In 2017, our water continued to meet all federal and state drinking water standards."

Because we serve less than 500 people, we are not required to mail the report to our members, but we are required to make it available on request. This year's report, together with all past annual Water Quality Reports prepared by the District, is posted in the "DWID DOCUMENTS" section of the community website at: ***www.TontoHillsWater.org***. In addition, this notice of availability is posted on the bulletin board at the community mailboxes, is included with the water bills, and is emailed to those members who have given us permission to contact them by email.

To locate the current report on the community website, copy and paste the following address into your browser: ***https://tinyurl.com/THDWID-CCR-for-2017***

If you have any questions after reviewing the report, please don't hesitate to contact me via the email, U.S. Mail, or office telephone information shown in the letterhead above.
